

Immunization #4

Sign your school up to use the Utah Statewide Immunization Information System (USIIS) to track immunization compliance.

Definition: After permission is granted at a district level, your school can sign on to use the Utah Statewide Immunization Information System (USIIS) to track and follow immunization compliance. USIIS is a great tool because it has immunization records from all over the state. If your school or district hasn't signed on to use USIIS yet, and does not have a tracking system for immunizations, develop a method to track students whose immunizations are not complete and ensure they receive them on time.

Assignments

School Coordinator Assignments

- Get approval from your district to sign up on USIIS
- Once the district has signed on, your school can sign on to use USIIS
 - If you cannot do this, develop your own method for tracking immunizations
- Determine which students are not up-to-date with their immunizations
 - Provide the families of those students with
 - Information about the importance of immunizations
 - Locations where they can get immunizations
 - Information about financial assistance if necessary
